

Clinic setup toolkit

Operational toolkit for health workers and partner organisations.

Contents	14 documents
Audience	Partner organisations and field teams
Licence	CC BY-NC 4.0
Cost	Free, no partnership required

Everything needed to open a rural health post, assembled from what we wished we had had the first six times.

What is included

- Site assessment checklist, including the questions about transport that are easy to skip.
- Equipment and consumables list, split into opening stock and first resupply.
- Cold chain specification for off-grid sites.
- Register and record templates, in a form national systems will accept.
- Opening-week staffing rota and supervision plan.

Using it

Take these rather than repeating the years it took to get them right. They may be adapted for non-commercial use with attribution. If you are running comparable work, ask us and we will send the editable source files and the trainer notes - an organisation doing this better than us is a good outcome.
