

Outbreak response toolkit

Operational toolkit for health workers and partner organisations.

Contents	17 documents
Audience	Partner organisations and field teams
Licence	CC BY-NC 4.0
Cost	Free, no partnership required

Assessment checklists, case definitions and the first-72-hours procurement list.

What is included

- Rapid assessment form - including the question of whether to deploy at all.
- Standard case definitions for the pathogens held in the regional caches.
- First-72-hours procurement list, pre-priced.
- Cholera treatment unit layout and water treatment specification.
- Daily line list and surveillance reporting templates.
- Stand-down and handover criteria, to be agreed before deployment rather than during it.

Using it

Take these rather than repeating the years it took to get them right. They may be adapted for non-commercial use with attribution. If you are running comparable work, ask us and we will send the editable source files and the trainer notes - an organisation doing this better than us is a good outcome.
