

Statement on funding withdrawal from three regional programmes

Press release

A donor policy change reduces our 2027 income by an estimated 4%. No clinic closures are planned; the shortfall is absorbed from reserves.

Detail

- The change follows a shift in the donor's geographic priorities and is not connected to programme performance.
- Reserves exist for exactly this situation and are sufficient to hold all three programmes through the transition.
- We are not launching an emergency appeal, because this is not an emergency.

Notes for editors

- We run six integrated health programmes across 31 countries, under formal agreement with each national health ministry.
- 94% of our 6,400 staff are citizens of the country they work in. Coverage presenting this work as done by foreigners is inaccurate.
- Patients are named only with written, informed and revocable consent. We do not supply imagery of identifiable patients without it.
- We will always provide the denominator and the confidence interval for any figure quoted here.
